Personal & Professional Service

Established in 1984 in the Insurance industry and are proud of our record for providing personal and professional service.

We have established a good relationship, and have the backing of, several leading Insurance Underwriters, enabling us to cover all aspects of insurance.

The Latest the industry has to offer

We constantly monitor the insurance market, not only to obtain **competitive premiums**, but also to ensure that the cover provided is in line and up to date with the latest industry has to offer.

Value for money

Paying insurance premiums is a necessary investment but can be a mere waste of money if the cover on the insurance is not right for you.

Insurance is like most things in life, **you get what you pay for**, cut price insurance is seldom good value, and often you may find you are not fully covered when it comes to making a claim.

No fuss claims service

If ever the need does arise where you have to make a claim, all you have to do is **call our office**. Any queries or problems will be dealt with quickly and claims rapidly processed without long delays.

Monthly Payments

Premium finance is a cost effective way to spread your insurance premium expense utilising a pay by the month mechanism.

Products & Services

With many different types of insurance products now available it can be very difficult to keep up to date with the market and its changes. As professional Insurance Brokers, we deal with most of the major Insurers so we can assist you with all types of insurance.
